## PROJECTS

### ILandSpaces

09/2023 - 12/2023 Mangalore

Summary of ILandSpaces

- The property trading platform, <https://www.ilandspaces.com/>, is dedicated to buying and selling properties and finding agents. Developed with a strong tech stack, the website utilizes HTML, CSS, Laravel, Tailwind CSS, Livewire, and AWS services. Razorpay is integrated for subscription-related transactions, enhancing the user experience in managing subscriptions.

### Synergenzio

09/2022 - 11/2022 Mangalore

Summary of Synergenzio

- The fest registration and event selection project for PRE UNIQUE 2022, tailored for pre-university and high school students, employed a tech stack featuring HTML, CSS, JavaScript, React (with TypeScript), NestJS, and MongoDB. Despite its past activity, the project is currently inactive.

### INFOVISION

03/2023 - 03/2023 Mangalore

Summary of INFOVISION

- InfoVision 2023, an enhanced version of its 2022 counterpart, catered to undergraduate students and utilized a tech stack comprising HTML, CSS, JavaScript, PHP, Laravel, and MySQL for college fest registration and event selection. Notably, InfoVision 2023 exhibited improvements over the 2022 version in terms of functionality and features.

### Smart Stay

04/2023 - 09/2023 Mangalore

Summary of Smart Stay

- Smart Stay is a comprehensive solution for hostel management. This project, powered by Laravel, HTML, CSS, JS, Livewire, PostgreSQL, and Tailwind CSS, facilitates seamless student registration, leave requests, complaints, fee payments, and announcements. Enjoy a user-friendly experience with the added flexibility of light and dark modes. Simplify and enhance your stay with Smart Stay!

## SUMMARY

As a full-stack JavaScript/TypeScript developer, I thrive on the challenge of crafting innovative and scalable web applications. My expertise spans both front-end and back-end development, where I harness the power of technologies like React, Angular, Node.js, Nest.js, PostgreSQL, Express, and Laravel. With a penchant for pushing boundaries, I continuously seek new ways to elevate user experiences and streamline operations.

## SKILLS

Laravel Angular React NextJS

Github Java Javascript Nest.js

Node.js PostgreSQL Python

Typescript Spring Boot Docker

TailwindCss C++ Rust AWS
